

# ChicagoCHEC Community Partners Resource Guide

The Chicago  
Cancer Health Equity Collaborative

September 2020  
4<sup>rd</sup> Edition

## ChicagoCHEC Community Partners Resource Guide:

On September 29, 2016, the Chicago Cancer Health Equity Collaborative (ChicagoCHEC) held its first annual symposium at Malcolm X College, “Keeping Cancer in CHEC: Bridging Communities through Education, Health Care, and Research”. At the event, we shared our first year accomplishments and received feedback from the community on future research & outreach projects.

The Symposium raised interest in a ChicagoCHEC Community Partners Resource Guide, featuring members of our partnership including: Northwestern University, the University of Illinois at Chicago, Northeastern Illinois University, and our Community Steering Committee with representatives from over 20 organizations. We also asked interested organizations at the Symposium to share their information with our network.

This guide will act as a referral point to learn about the programs & services offered through ChicagoCHEC partner organizations, as well as participating organizations from the ChicagoCHEC Symposium. We hope this can help community members throughout Chicago connect with available resources from our ChicagoCHEC partners.

As ChicagoCHEC works toward cancer health equity, this document will be updated regularly online at: <https://chicagochechec.org/resources/resource-guide/>

The Chicago Cancer Health Equity Collaborative (ChicagoCHEC) is a National Cancer Institute-funded initiative. Our goal is to reduce cancer inequities in Chicago's underserved communities.

Our mission is to advance cancer health equity through meaningful scientific discovery, education, training, and community engagement.

### How may we support you?

These are our programs:

#### COMMUNITY ENGAGEMENT

**Community outreach and education** supports community capacity building efforts to improve health outcomes among Chicago's underserved communities.

**Community Health Educators (CHEs)** work closely with local community organizations in cancer prevention, awareness and outreach.

**Community Steering Committee (CSC)** is composed of key community members and leaders that guide our strategic efforts to foster respectful and meaningful collaboration across our partnership.

#### RESEARCH

##### Research Incubator grants

To support funding for partnership building, research proposal development, pilot projects, and research projects. It fosters cross-institutional collaborations among NU, UIC, NEIU, and community partner organization(s).

#### EDUCATION

##### Research Fellows Program

Open to eligible undergraduate students. Focused on the development of academic, technical and professional skills in preparation for careers in health care as well as social, behavioral and biomedical research.

##### Career 911 Academy

A free online course that introduces health careers exploration with professional development skills such as: resume and cover letter writing, job search, interviewing, networking and professional communications.

## MISSION

INSTITUTO provides comprehensive education programs and services to Chicago families including adult education, financial literacy and planning, youth development and education, workforce development, citizenship services, and more. We work with people at all education levels, starting with learning how to read and write in their native language, and provide a pathway to higher-level skills, new careers, and greater stability. We look to the potential in those who are often underserved by traditional education systems and develop innovative programs to meet their needs.

## CHICAGO PUBLIC SCHOOLS

### MISSION

At Chicago Public Schools, our mission is to provide a high-quality public education for every child in every neighborhood, that prepares them for success in college, career, and community. This important work is grounded in our vision, a document created to align our efforts and provide a clear sense of our priorities over the next three years for all stakeholders. Our work begins with three commitments: academic progress, financial stability, and integrity.

## JESSE BROWN VA MEDICAL CENTER

### MISSION

Mission: Honor America's veterans by providing exceptional health care that improves their health and wellbeing. The Jesse Brown VA Medical Center consists of a 200-bed acute care facility and four community based outpatient clinics (CBOCs). Jesse Brown VAMC provides care to approximately 62,000 enrolled veterans who reside in the City of Chicago and Cook County, Illinois, and in four counties in northwestern Indiana. In FY10, the medical center had over 8100 inpatient admissions and 560,000 outpatient visits. A budget of over \$355 million supports approximately 2,000 full-time equivalent staff, including 200+ physicians and 450 nurses, with 500+ volunteers providing service and care at Jesse Brown VAMC and CBOCs.

# JOHN H. STROGER, JR. HOSPITAL OF COOK COUNTY

## MISSION

John H. Stroger, Jr. Hospital of Cook County is a teaching hospital that provides primary, specialty and tertiary healthcare services. The hospital has a staff of more than 300 attending physicians along with more than 400 medical residents and fellows.

The hospital serves as the hub for the Cook County Health & Hospitals System for delivery of specialty and sub-specialty care. More than 40% of the hospital's space is dedicated to an outpatient Specialty Care Center. The Level 1 Trauma Center is one of the most respected in the nation. The hospital's adult emergency room treats over 110,000 patients annually. While the Pediatrics emergency room treats 45,000 children and adolescents each year with a no wait policy.

In the proud tradition of its predecessor, Cook County Hospital, it remains at the forefront of new therapies and innovations in healthcare while never neglecting those in need. The John H. Stroger, Jr. Hospital of Cook County today continues to maintain the strong commitment of the Cook County Health & Hospitals System to the healthcare needs of Cook County's underserved population, while also offering a full-range of specialized medical services for all segments of the community.

## SERVICES AND PROGRAMS

### Research Training

#### Summer Research Opportunity Program

The Summer Research Opportunity Program (SROP) is an eight-week competitive research experience at Northwestern University for sophomores and juniors from colleges and universities across the United States. All fields of research at Northwestern are open to SROP participants including the social sciences and humanities, physical sciences, chemical and biological sciences, technology, math and engineering fields. Those belonging to groups that have been traditionally underrepresented in graduate education (e.g., certain racial and ethnic minorities, women in STEM, first-generation college students, etc.) are encouraged to apply

- **Contact:** Big Ten Academic Alliance SROP Program Manager  
[srop.coordinator@btaa.org](mailto:srop.coordinator@btaa.org) or call (217) 244-4899.

#### CURE Program

A summer research program at the Lurie Cancer Center of Northwestern University for underserved college students interested in pursuing careers in the biomedical sciences. It is funded by a grant from the National Cancer Institute (NCI). Each year the Lurie Cancer Center accepts 12 college students to work alongside top cancer researchers in state-of-the-art laboratories. The scientists act as mentors and work with students on nationally funded laboratory research projects during the eight-week summer program. Students are introduced to the basics of cancer biology and receive career guidance through weekly focused seminars presented by faculty members. At the end of the CURE program, each trainee is required to prepare a brief written summary and to give an oral report of his or her project to fellow CURE students and faculty mentors.

- **Contact:** Robin Leikin, PhD, CURE Program Director: [CUREprogram@northwestern.edu](mailto:CUREprogram@northwestern.edu)

### Education

#### EvanSTEM

Northwestern in partnership with the City of Evanston, Evanston Public Library, Evanston/Skokie School District 65, Evanston Township High School District 202, McGaw YMCA, Family Focus and Youth and Opportunity United (Y.O.U.) helped launch EvanSTEM, a program that seeks to improve access and engagement for students who have traditionally underperformed or have been underrepresented in Science, Technology, Engineering and Mathematics (STEM) programs.

## Health

### Women's Health Research Institute (WHRI)

A unique community of researchers, clinicians, students and advocates affiliated with Northwestern University dedicated to improving women's health by advancing the field of sex based biology.

- Monthly research forums; paid summer positions for undergraduate students interested in oncofertility laboratory research; science education summer academies for high school females in Chicago; mentoring program between female high school girls and science graduate and medical students
- Link: <http://www.womenshealth.northwestern.edu/community-education>
- Address: 303 E Superior Street, Suite 10-121, Chicago Illinois 60611. Phone: 312-503-1385

### Center for Audiology, Speech, Language, and Learning

#### ○ Adult Cognitive Screenings

Free community screenings give participants a baseline of their overall cognitive health. Confidential 20-minute cognitive screenings involve answering written and verbal questions that are commonly used by allied health professionals to gauge brain health through memory, speech, and other related indicators. Please contact us at 847-491-3165 if you would like to host a screening event or register for an upcoming screening.

#### ○ Hearing Screenings

Free hearing screenings conducted by the clinic are held in various locations throughout the year. Call 847-491-3165 if you would like to host a screening event or register for an upcoming screening.

#### ○ Youth Speech-Language Screenings

Schools and daycares often invite speech-language pathologist teams to assess speech-language development.

## MISSION

Our Cancer Center philosophy and execution functions under five cores: Education, Community, Clinical Science and Services, Basic Sciences and Shared Resources. These cores underlie our priorities. Our clinicians and researchers, of whom make up our highly distinguished faculty, not only train our future healthcare providers, but are breaking new ground in the process with continual research on cancer. The Office of Community Engaged Research and Implementation Science (OCERIS) of the University of Illinois Cancer Center also facilitates this value of education through community screenings and prevention opportunities, by embedding themselves within the groups of people who most need our care. Our labs and hospital facilities are stocked with state-of-the-art technology, allowing our clinicians to treat their patients and our researchers to seek out cancer's demons, using the basics of science and modern medicine. Finally, our Shared Resources are plentiful, providing our Cancer Center with the many tools needed to conduct innovative clinical trials that are in their earliest stages, and develop novel pharmaceuticals that are changing the way cancer is treated. Mile Square offers our patients an opportunity for primary health care and cancer screening as needed, under the umbrella of the Federally Qualified Health Care Systems. Our mission of serving the underserved is carried throughout, with our partnership to the UI Health Mile Square Health Centers as a way to maintain that connection. Within this context, we are building a model to provide our constituents with access to the best healthcare possible. Ultimately, our goal is to develop a bench to community model of care that translates the science of cancer into the welcoming arms of a community that cares. The combination of our laboratory research, clinical trials and patient care enables our Cancer Center teams to actively translate knowledge gained, into an improved quality of life for persons and families impacted by cancer.

# The University of Illinois at Chicago

**Sector:** Cancer Center

1200 West Harrison St., Chicago, Illinois 60607

## CONTACT INFO

**Website** <https://www.uic.edu>

**Phone** (312) (996)-7000

**Email** [www.@uic.edu](mailto:www.@uic.edu)

## MISSION

- To create knowledge that transforms our views of the world and, through sharing and application, transforms the world.
- To provide a wide range of students with the educational opportunity only a leading research university can offer.
- To address the challenges and opportunities facing not only Chicago but all Great Cities of the 21st century, as expressed by our Great Cities Commitment.
- To foster scholarship and practices that reflect and respond to the increasing diversity of the U.S. in a rapidly globalizing world.
- To train professionals in a wide range of public service disciplines, serving Illinois as the principal educator of health science professionals and as a major healthcare provider to underserved communities

## UNIVERSITY OF ILLINOIS AT CHICAGO SERVICES AND PROGRAMS

### Research

As Chicago's only public research university, real-world problems are solved through innovation and discovery. Research at the University of Illinois at Chicago (UIC) is re-shaping educational policy; developing cleaner, more sustainable energy; helping to make sense of today's vast amounts of computer-generated data; and driving economic development by moving research to practical application. Outstanding programs range from the creation of new medical diagnostic techniques to turning carbon dioxide into fuel.

### Education

UIC is made up of 15 colleges dedicated to the discovery and distribution of knowledge, with research strengths in the areas of computer science, sustainability, bioengineering, health sciences, psychology and education. UIC features 15 academic colleges, 83 bachelor's, 93 masters and 64 doctoral degree programs.

### Health

A part of UIC, UI Health includes a hospital, 22 outpatient clinics, and 12 Mile Square Health Center facilities. It also includes the seven UIC health science colleges: the College of Applied Health Sciences; the College of Dentistry; the School of Public Health; the Jane Addams College of Social Work; and the Colleges of Medicine, Pharmacy, and Nursing.
